

# THE RockITS

Jeremy, sixteen years old (songwriter, guitar, lead vocalist) wanted to create a band that could infuse Rock into Pop with high energy sound, authentic instruments and harmonies.

Jeremy connected with Keith in 2019 through some local ads and one of their first performances was at a 10,000 seat baseball stadium as the pre-game show! Camden joined the band in late 2019.

They recorded their debut album using a mix of modern and classic techniques. The album was recorded in just 2 days - a feat not often accomplished nowadays. On the classic technique, they worked alongside the legendary **Eddie Kramer (The Beatles, The Rolling Stones, KISS)** and on the modern techniques they worked with **Kevin O'Leary (Shawn Mendes, Barenaked Ladies)**

**Their infectious first single “All Of The Time”** begins with its explosive hook of commanding lead vocals and energetic harmonies. Next, they descend through the verse’s irresistible melody, which only lodges itself further into listeners’ heads with every listen. The perfectly pop bridge is driven by the grand piano, striking powerful chords and adding to the modern sound as the lead vocals soar through the high notes.
